OF FAIRIES AND FANTASIES

She is a scientist, an able homemaker, a mother and an artist rolled into one. What would you expect from her as a painter? Artist Seema Chaudhary unabashedly admits that it is fairies and fantasy that give flight to her imagination. And, of course, nature at its resplendent best. On the other hand, her brother Nitin Chaudhary, an engineer by profession, admits about his fascination with designs, patterns and geometrical forms, which are engineered into unique works of art.

"Women are different from men. Cinderella and Snow White remain with women in all through their lives. It is this fantasy that I recreate on canvas," explains Seema. Using multiple layers and rich textures in acrylic and oil pastels, she has essayed the expression in the eyes of a woman waiting for her lover to return to her.

Nitin's inspiration on the other hand is Lord Ganesha in various forms. Using vibrant colours in the background, and geometric and self-textured patterns in black and white, Nitin effortlessly creates balance between forms, lines and colours. The works include a halo-like white form of a harp set on a colourful backdrop, a dancing girl, the affection between a man and woman and a girl looking at the blue sea as if waiting for her lover.

Both the siblings are self-taught artists and bring their realistic, contemporary, fantasy and modern works under Kalakruti Arts. You can view their works at the Hirji Gallery at the Jehangir Art Gallery from September 26 to 30, 11 am to 7 pm. Post this, they will exhibit their works at the Nehru Centre, Worli from October 17 to 26.
